Goodbye, printer!

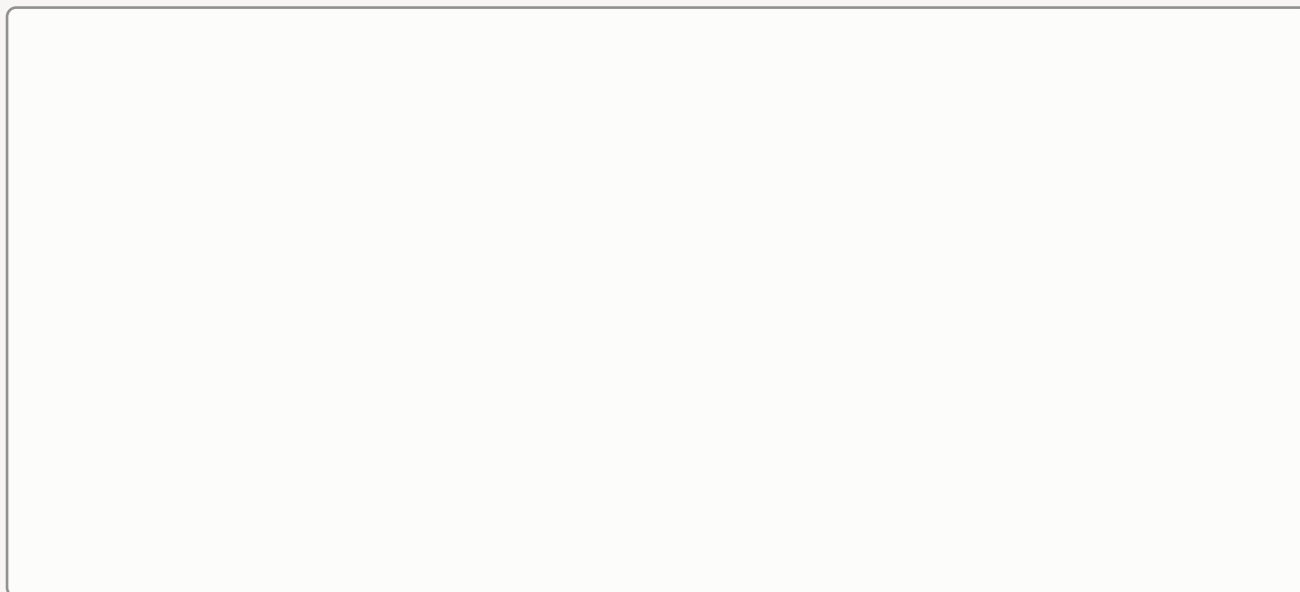

Dear \_\_\_\_\_ ,  
Use the **T** tool to type the name of your printer

We have been together since \_\_\_\_\_ but it is now time to say goodbye.  
Type a date

Thank you for the many pages printed, printing of black text despite an empty yellow cartridge, the regular paper jams and \_\_\_\_\_ .  
The unique thing you and your printer share together 🥺

I will keep you in my heart, and in this image:

Use the highlight  and pen  tools to draw, or the image tool  to add a picture

May your paper tray always be full and your cartridges only ever originals.

You left your prints on my heart. <3

Best,

\_\_\_\_\_
